A replacement name for a New Caledonian *Calliostoma* species (Gastropoda: Trochidae)

Bruce A. Marshall

Museum of New Zealand Te Papa
Tongarewa
P.O. Box 467
Wellington
NEW ZEALAND

As a result of procedural omission during preparation of a recent paper (Marshall, 1995), I overlooked the fact that a specific epithet chosen for a new *Calliostoma* species was already in use by Quinn (1992).

Calliostoma (*Benthastelena*) *kanakorom* new name
Calliostoma (*Benthastelena*) *coronatum* Marshall, 1995: 409, fig. 49-51, 128, 156. Not *Calliostoma coronatum* Quinn, 1992.

The replacement name is for the indigenous people of New Caledonia and Vanuatu.

- Quinn, J. F. 1992. New species of *Calliostoma* Swainson, 1840 (Gastropoda: Trochidae), and notes on some poorly known species from the western Atlantic Ocean. The Nautilus 106:77-144.

Erratum

In the section "Type material" in Simone *et al.* (2000: 139) we inadvertently printed an incorrect paratype number. The USNM paratype number therein should be 880725, not 2016009 as originally stated.
